Good afternoon, everyone. Do you know there are over 17 million people who are blind or cannot see well in China? In fact, only about 400 guide dogs can help them. Luckily, help will come soon from a robot guide dog—Xiaojiao. It was developed by scientists at Shanghai Jiao Tong University. Xiaojiao uses AI to notice traffic lights. It can remember routes after learning them and can walk up to three meters every second. Xiaojiao can understand words, so it can easily listen and talk to its owner. It can reply to the person in less than one second, and it gets the words right most of the time. I think this great robot will help the blind live better.

Hello, everyone. I'm Jack. I want to share a story that happened to me. I used to be busy with my own things and care nothing about others. However, on a Saturday morning, a lady changed me. It was cloudy that morning, and I went out to have a piano class. After a while, it began to rain. I was nervous because I didn't bring an umbrella. I almost cried. At this time, a lady bought an umbrella for me. She said she hoped when I met someone in need in the future, I could help him or her. What a kind person she was! Her kindness touched my heart and made me believe in the warmth of strangers. From that day on, I became willing to help others.

Hello, everyone! My name is Mary. I'm very glad to stand here and share my learning methods with all of you. As we all know, developing strong English writing skills requires both effort and smart methods. You can start by keeping an English diary. Take 20 minutes each evening to write about school events, weekend plans, or interesting stories. Another useful method is to read good English writings. Read them carefully, and try to write in the same way. This helps you learn how to organize ideas and use proper expressions. Also, I always collect useful sentences and phrases while reading. I write them down in my notebook and try to use them in my own writing. This really improves my writing skills. I hope these methods can help you too.

Hello, boys and girls! I'm Eric. I'm glad to share my

idea about “How to live a healthy life”. Health is the most important part of everyone’s growth and development. To keep healthy, we should eat more vegetables and fruits. For example, I love apples most, so I have them every day. And don’t forget to exercise for at least 30 minutes a day. Running, jumping rope, and playing ball games are all good choices. Getting 8 to 9 hours of sleep each night is very important as well. Having enough sleep makes us full of energy all day. Finally, remember to focus on the bright side of things. By doing so, we can live a healthier life.

Dear kids,

Good day! This is Coach Dan. I’m excited to tell you about our Summer Swim Camp! It will help you become a good swimmer! Here are some key points for this week.

First, everything starts with the food you eat. Half of your meals should include fruits and vegetables. One quarter can be rice or noodles, and the last quarter can be meat or fish. Drink plenty of water during the day. If you need help in choosing your meals, I’ll be in the Main Hall after 6 p. m. Second, keeping practising and making your body stronger are also very important. Third, swimming might be hard and after the first day, your arms and legs will feel unwell. Don’t worry about it. It’s okay. You will get better if you follow my words. So come on, swimmers. Let’s go!

Sincerely,

Coach Dan

Hi, boys and girls! Today, I’d like to introduce a kind of building—*Tulou*. It lies in mountain areas in southern Fujian, China. *Tulou* was mostly built by local people over 500 years ago. The main shape of *tulou* is round with thick walls that can keep out the heat in summer and the cold in winter. So *tulou* buildings are cool in summer and warm in winter. Most *tulou* buildings are three to four floors high. Every *tulou* building has hundreds of rooms. Rooms on the first floor are used as kitchens, rooms on the second floor are used to store food, and rooms on the third and fourth floors are for bedrooms and living rooms. *Tulou* has become a famous place for tourists. Many tourists are proud of the traditional Chinese buildings and come to visit them in person.

Hello, everyone! It’s great to be here. Today, I want to talk to you about some great ways to learn new English words. Learning new English words is important because it helps us talk and write better. First, write a new word three or four times to help you remember it. This is a great way to practise and memorize the words. Second, write down new words in a notebook, and add the meaning in English or your own words, or draw a picture. This will help you remember the words better. Third, make some sentences with the new words. This helps you understand how to use them when you speak or write. Remember that learning new words can be fun and easy if you use these ways. So, let’s start learning new words today! Thanks for listening.

Hello, everyone! Have you ever imagined a new style of tourism? Here I want to share one with you, and I think you will be interested in it.

This new style of tourism mixes travel with traditional culture. For example, during the Mid-Autumn Festival in 2024, the new tourism allowed people to join in activities at over eighty places while travelling. It also allowed many people to wear special clothes and watch some shows. It's believed that more and more places will become popular with the rise of the "neo-Chinese style tourism". It's really a good way to spread the traditional culture. Many foreigners can also experience this kind of tourism.

If you have a chance to travel in China, you can experience this new style of tourism. It will bring you fun.

How do you usually spend your summer holiday? I prefer to do some outdoor activities, such as running, playing ball games, camping and skating.

Camping is my favorite one, because I can enjoy the beauty of nature and take exercise at the same time. I usually go camping in parks in the city, but sometimes, I camp in the mountains or the forests with my friends. We need a pair of good sports shoes, some comfortable clothes, a bag and some water. Camping makes us relaxed although we need to prepare many things for it. It is fun and exciting, but we also need to pay attention to safety. Here are some tips for those who like to go camping: go camping with others, prepare a map just in case and make sure you bring your cell phones.

These days, volunteer travel has caught more people's attention. Volunteer travel means helping others in the process of a trip. During the trip, volunteer travellers often provide several services like teaching, cooking, animal care and cultural exchange. In return for their help, the volunteers may get free or cheap living places, meals or classes.

Traditionally, volunteer travel takes place in a foreign country. However, in recent years, more volunteer trips have taken place in the countries where the volunteers were born.

People start to try volunteer travel for three main reasons. By doing volunteer work while travelling, travellers may have an influence on the world. Besides, it helps people living in cities get a new experience of countryside life. Volunteer travel also attracts many visitors to make them help the development of local tourism.

Hello, everyone! I'd like to share some tips to help you make teamwork better. Working as a team is much easier than doing everything by yourself.

First, make sure everyone understands the goal of the project clearly. If you're doing a class project, you need to check the teacher's instructions carefully and ask questions whenever anything isn't clear. Besides, teamwork will be better when people have clear roles. There should be a leader who makes decisions and writes down the team's ideas. Other roles might prepare some information or give a speech to the class. Third, dividing the large project into small tasks will be helpful. Team members can choose tasks they can do well. Finally, try to enjoy yourselves and everything will be easier.

Hello, everyone! Do you know about World Book Day?

It is celebrated on April 23rd every year around the world. This day is made to encourage more people to read. On that day, some children will dress up as their favorite book characters and take part in fun activities at school. World Book Day is important for children to enjoy what they read. However, it is not always easy to find a book that they might enjoy. Here are two suggestions to help them. First, try to read a book that they are interested in. Second, visit their local library because the librarians there can provide some helpful advice. Reading can help children improve their understanding ability and learn new things. Try to enjoy reading and discover the magic inside every book!

Hello, I'm Danny. I will introduce my bike trip to you. Last Sunday, my friend Tommy and I talked about what to do together at the weekend. He advised us to go to the national park by bike, and I agreed. As soon as we arrived, I fell in love with the place. First, we rode bikes slowly and explored the park. The sun was shining through the green trees, and there was a sweet smell of flowers in the air. Then, we saw a lake in the park. So we decided to go boating. I was tired, but I enjoyed myself that day. It was an interesting trip. Now, I am planning the next trip by bike.

After the activity, we will continue to take care of these vegetables. We need to record the changes of the vegetables in height, color and leaf size every week.
